

1. EKURHULENI EAST TVET COLLEGE VIRTUAL GRADUATION

Virtual Graduation is a new phenomenon that was as a result of COVID-19 protocols preventing or limiting gatherings of persons, especially within Higher Education.

The Ekurhuleni East TVET College (EEC) like many other TVET Colleges and Universities has followed suit in this new phenomenon to allow its students to enjoy the benefit of Graduating. However, EEC has done its Virtual Graduation Ceremony differently from the rest of its counterparts. The EEC Virtual Graduation was a hybrid of Virtual and physical to allow the adherence of COVID -19 Protocols and accommodate the affection and memorabilia that a normal Graduation would have had.

The committee insisted that the Graduation should be done in such a way that it will still offer an opportunity for students to have something that could keep like photography and or memory and experience. During the Graduation, 700 students were invited however only 344 students attended.

The Virtual Graduation 2021 was held on the 10th December 2021 on a YouTube College page and Facebook College page. The Virtual Graduation was in two folds, the first fold was a photo shoot that was held on the 03rd and 04th December 2021. The second fold was the actual graduation that was held on the 10th of December.
